## Barracuda® XT

No compromise. Speed and capacity for high-performance desktop systems

**3TB and 2TB • 64MB cache • SATA 6Gb/s**

### Key Advantages

- Massive 3TB and 2TB capacity options provide plenty of room for downloading today's storage-craving PC games or storing many hours of high-definition video content.
- The first comprehensive, non-hardware solution to accessing 3TB capacity by using Seagate® DiscWizard™ software
- The 7200-RPM performance platform complements high capacity, delivering a powerful combination of extreme storage and top-end desktop performance.
- A 64MB cache optimizes burst performance and reduces data throughput bottlenecks.
- The SATA 6Gb/s interface enables the use of the industry's newest and fastest hard drive controllers while providing backward compatibility to legacy SATA 1.5Gb/s or 3Gb/s systems.

### Best-Fit Applications

- High-performance PC gaming systems
- High-definition video editing and production systems
- Home servers and workstations
- Desktop RAID
- FireWire 800- or eSATA-enabled external storage devices

# Barracuda® XT

No compromise. Speed and capacity for high-performance desktop systems

## A New Addition to the Family

The Barracuda® XT drive now brings 3TB of capacity to the desktop, breaking the 2.1TB desktop storage capacity boundary with the first non-hardware, comprehensive 3TB solution. Seagate® DiscWizard™ software allows computer systems to access 3TB capacity—even on legacy Microsoft XP-based systems. We recognize the need for products tuned to the unique needs of different computing platforms and applications. The Barracuda family of desktop storage options now includes:

- Barracuda Green drives—Engineered specifically for low-power-focused applications, such as direct-attached external storage or low-power-focused desktop computing
- Barracuda drives—The industry standard for mainstream desktop computing offering a wide range of capacities and cache options, a core 7200-RPM performance platform and now supporting the new SATA 6Gb/s interface on all capacities
- Barracuda XT drives—The performance leader in the family, with maximum capacity, cache and SATA performance for the ultimate in desktop computing

## Performance, Capacity and Peace of Mind

- Maximize your system performance with the industry's biggest cache available—64MB.
- Help future-proof your storage with the new SATA 6Gb/s interface, which is fully compatible with legacy SATA controllers while also providing an upgrade path to a host of new SATA 6Gb/s motherboards and hard drive controllers.
- Backed by the Seagate 5-Year Limited Warranty, you can rest easy knowing your Barracuda XT hard drive will provide you with years of worry-free operation.
